Profile

Full Stack Developer skilled in ASP.NET Core with a strong track record of building real-world applications — from quiz platforms to project management systems. A collaborative team player who writes clean, maintainable code and picks up new technologies fast.

Technical Skills

Frameworks: ASP.NET Core, ASP.NET MVC, Next.js

Languages: C#, Java, Python

Frontend: HTML, CSS, Razor Views

Backend & API: ASP.NET Core Web API, REST API Integration

Database: SQL Server, Entity Framework Core

Projects

Quiz Management System | *March 2024*

- Designed and implemented an ASP.NET Core MVC web application to manage users, quizzes, questions, and quiz-wise question mappings, utilizing ADO.NET and stored procedures for secure, session-driven database operations.

E-Commerce Web Application | *September 2025*

- Developed a scalable E-Commerce platform using ASP.NET Core MVC, ASP.NET Core Web API, and SQL Server, featuring shopping cart and wishlist management, coupon validation, real-time order notifications, transaction-safe order processing with inventory management, simulated payment processing with Cash on Delivery and payment confirmation workflows, along with end-to-end return and refund management.

Student Project Management System | *March 2026*

- Developed a multi-role project management platform using Next.js, PostgreSQL, and Prisma to streamline milestone tracking, meeting schedules, and document submissions.

Education

Darshan University, Rajkot
B. Tech – Computer Science & Engineering (CGPA: 7.82) | Expected 2027

B.M. Patel Science School, Dhrol
12th – GSHSEB 65% | 2023

The Patel Education System, Dhrol
10th – GSEB 92% | 2021

Strengths

- Teamwork & Collaboration — contribute to group goals, coordinate across roles, and support teammates to deliver results.
- Continuous Learning — proactively explore new technologies beyond coursework.

Languages & Interests

Languages: Gujarati, Hindi, English

Interests: Web Development, Learning New Technologies
