Career Objective:

Software development professional passionate about designing and developing scalable, reliable applications that solve real-world problems. Driven by continuous learning, clean engineering practices, and a commitment to delivering software that creates value for both users and businesses.

Technical Skills:

- **Programming Languages :** C#, Java, Python, TypeScript
- **Frontend :** ASP.NET Core MVC, Next.js, HTML, CSS, Razor Views
- **Backend & API :** ASP.NET Core Web API, REST API Integration
- **ORM & Database :** Entity Framework Core, MS SQL, PostgreSQL, Database Design
- **Tools :** GitHub, Git, Swagger, Postman

Projects:

Quiz Management System | ASP.NET Core MVC, ADO.NET, SQL Server **GitHub**

- Designed and implemented an ASP.NET Core MVC web application to manage users, quizzes, questions, and quiz-wise question mappings, utilizing ADO.NET and stored procedures for secure, session-driven database operations.

E-Commerce Platform | ASP.NET Core MVC, Web API, EF Core, SQL Server **GitHub**

- Architecture: Built a dual-tier e-commerce platform using ASP.NET Core MVC, RESTful Web API, EF Core, and SQL Server.
- Payment Gateway Integration: Integrated Razorpay for payment processing, signature validation, refund handling, and sandbox testing.
- Real-Time Updates: Implemented SignalR for live order tracking and instant admin notifications using channel groups.
- Security: Implemented JWT and Cookie authentication, role-based authorization (Admin/Customer), and BCrypt password hashing.
- Map Integration & PDF Invoicing: Integrated OpenStreetMap and Leaflet for interactive address selection and geocoding, and generated PDF invoices using QuestPDF alongside coupon management and transactional stock updates.

Student Project Management System | Next.js, TypeScript, PostgreSQL, Prisma, Tailwind CSS **GitHub**

- Project Management System: Developed a Student Project Management System with group formation, project proposals, milestone tracking, meeting attendance, and faculty evaluation.
- Full-Stack Development & Database: Built RESTful APIs with pagination, search, and status filtering using Next.js, Prisma ORM, and PostgreSQL for efficient data access and relational data management.
- Authentication & Security: Implemented JWT authentication, role-based authorization (Admin/Faculty/Student) using Next.js Edge Middleware, HTTP-only session cookies, server-side validation, and activity auditing.

Education:

B. Tech – Computer Science & Engineering (Expected 2027) **CGPA - 7.82/10**
Darshan University - Rajkot, Gujarat

Higher Secondary Certificate (12th) **Percentile - 79**
B.M. Patel Science School - Dhrol

Secondary School Certificate (10th) **Percentile - 98**
The Patel Secondary School - Dhrol

Languages:

Gujarati, Hindi, English
